

Game Addi Oxi

The product information is applicable to the product in the recommended solution for use. If information about the concentrated product is required, please see the MSDS.

PRODUCT TYPE	Oxidizing additive
APPLICATION	Game Addi Oxi is used as a booster for CIP cleaning solutions in the brewery- and food industries, as well as the pharmaceutical industry. The product can also be used in other industries and for other applications, by agreement with Novadan's consultant.
PROPERTIES	Game Addi Oxi is a cleaning-enhancing additive based on hydrogen peroxide and is defoamed at temperatures above 40°C. Game Addi Oxi loosens and effectively removes heavy soil including burnt organic deposits. The product is not stable in solutions and should be added as a booster directly to the cleaning solution.
STORAGE	Store in tightly closed original container in a dry, cool and well-ventilated place. Keep away from food, drink and animal feeding stuffs. Oxidising material - Keep away from flammable and combustible materials. Storage: -5 - 25 °C Durability: 18 months.
APPROVAL	The product meets the general food law requirements for cleaning chemicals used in food producing companies. This means that the product under normal use and dosage or under foreseeable circumstances does not transfer any components to foodstuff in a degree that may endanger human health.
SAFETY	Please see the enclosed safety data sheet for information about handling and disposal. For professional users only.

INSTRUCTIONS AND DOSAGE

Dosage: 0,2-1% (depending on the application)
Game Addi Oxi shall always be added the diluted lye solution.
Temperature: 40-90°C

Contact your Novadan consultant for further instructions about dosage and directions for use.
After cleaning, all surfaces must be rinsed thoroughly with drinking water.

PRODUCTDATA

Colour	Colourless.
Physical state	Fluid.
Bulk density	~ 1,15 kg/l
pH Concentrate	~ 1,5
pH (Aqueous solution) 1%.	~ 4,5
